

Seeds for Schools

Southland A&P Show 2020

The Southland A&P Association have paired up with Diacks Nurseries Ltd and created the initiative 'Seeds for Schools' to offer schools in our community an opportunity to learn and grow with seeds.

RESEARCH

Enclosed are 1x pack of Radishes and 1x pack of carrots. You will need to research and find out when the best time to plant them is so that they are ready for showday on the 7th March 2020

PLANT

You will need to think about where and when to plant your seeds- make sure you document all of your learning and happenings in your journal! Journal downloads are available on our website

GROW

Watch your seeds grow into beautiful plants and produce- remember to take good care of them and keep taking photos and documenting the changes!

SHARE

Harvest your vegetables in the week prior to the show. Remember to complete your journal and bring it to the show with your basket of vegetables. If you chose to record a digital element to your journal please send this through to us prior to showday too!

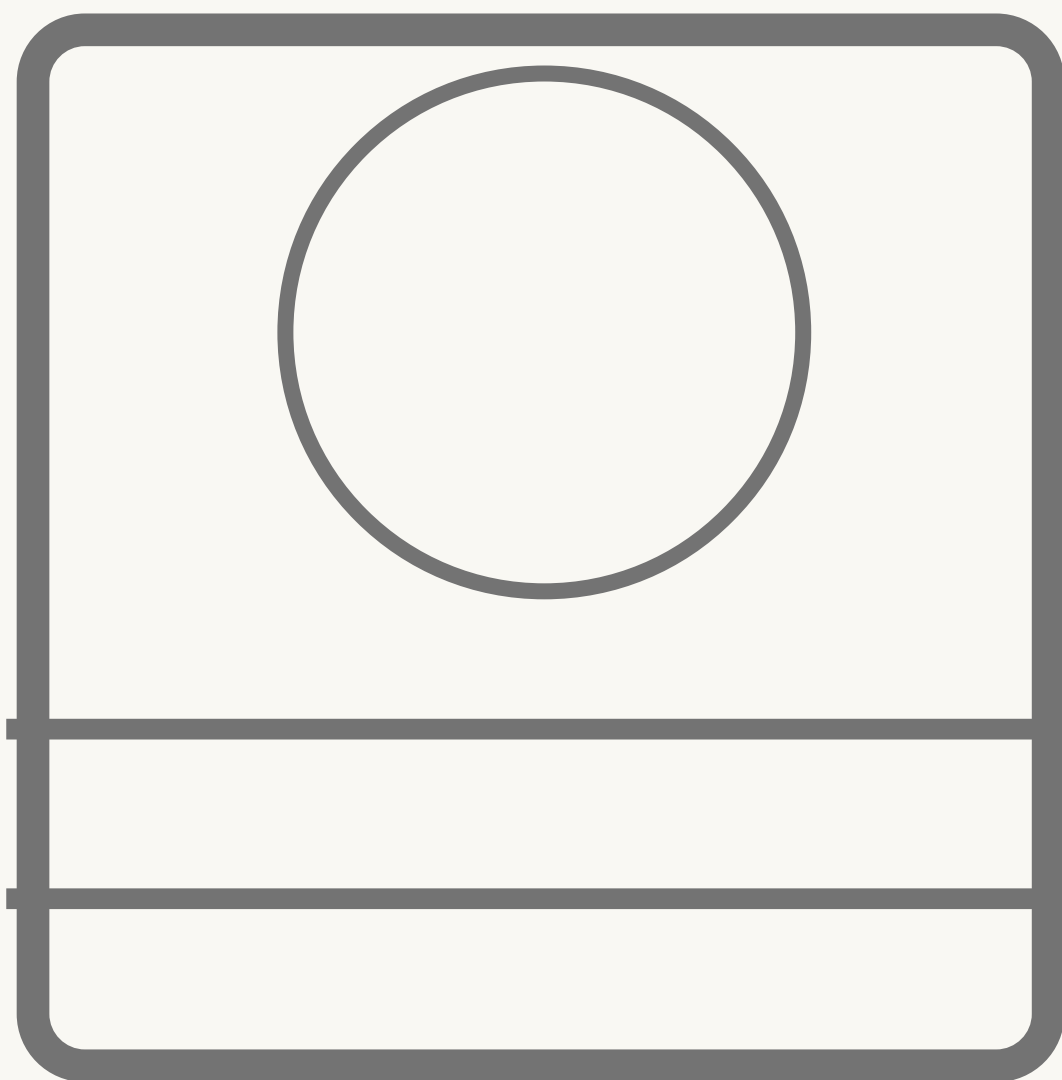

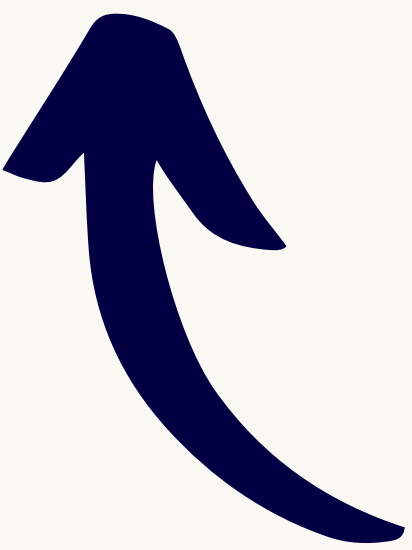

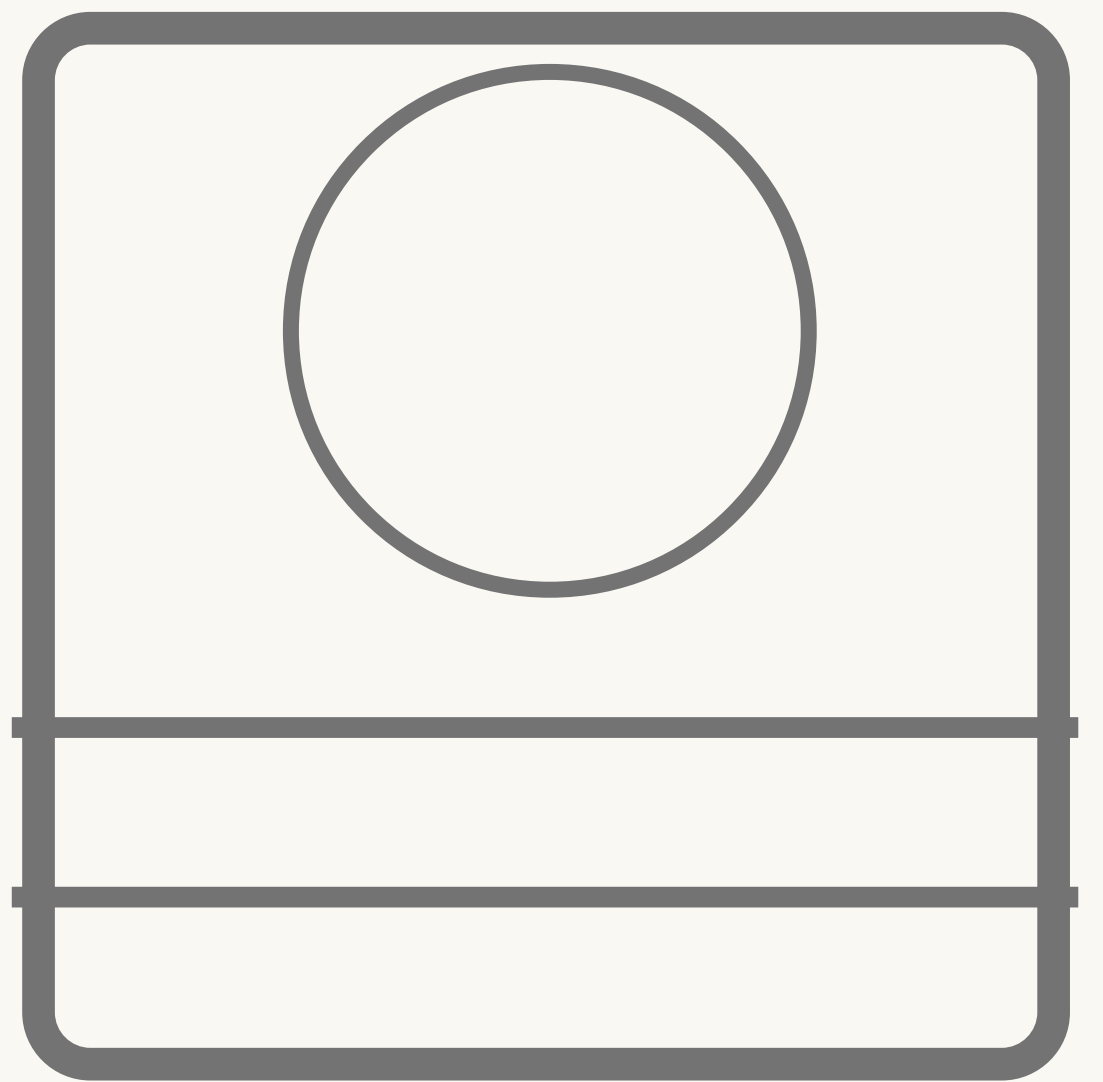

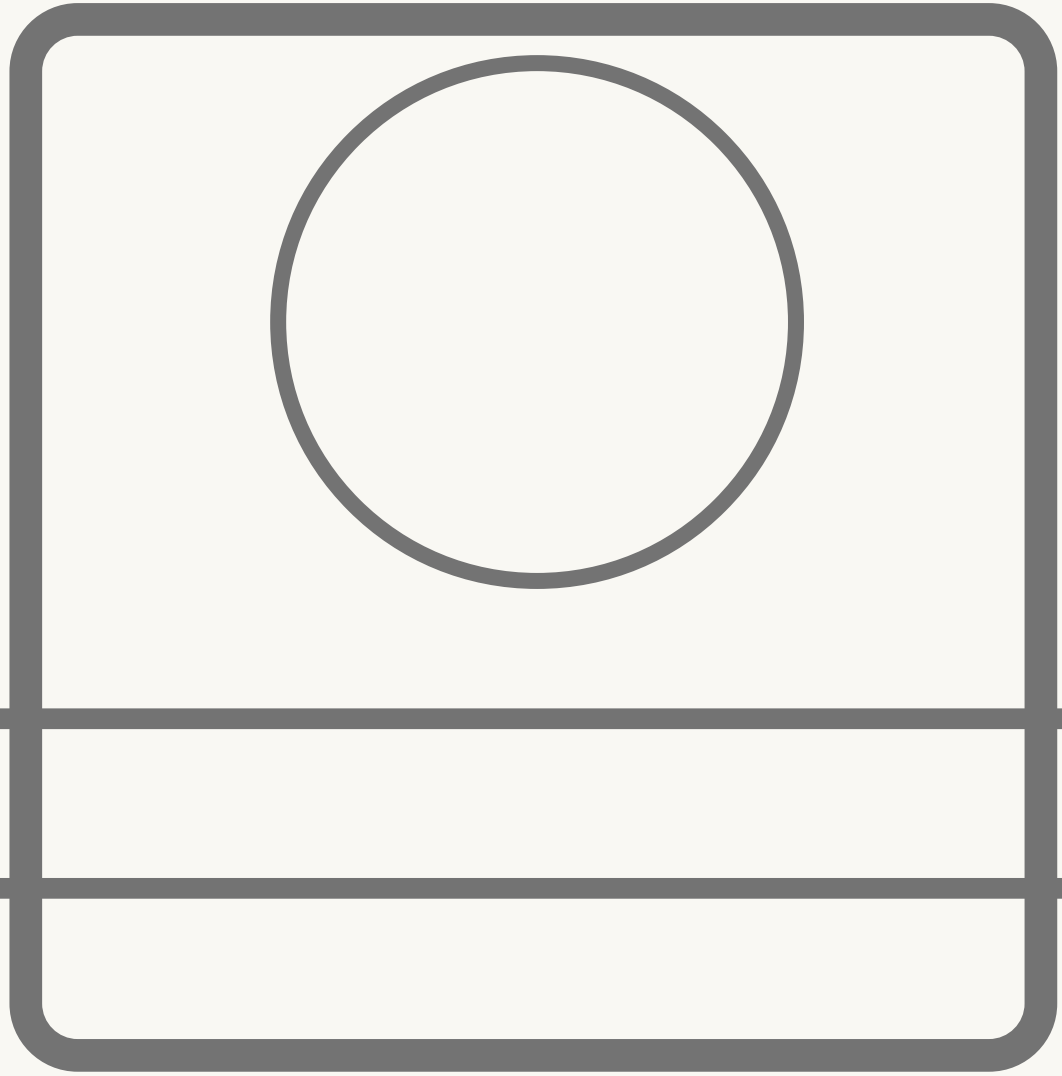

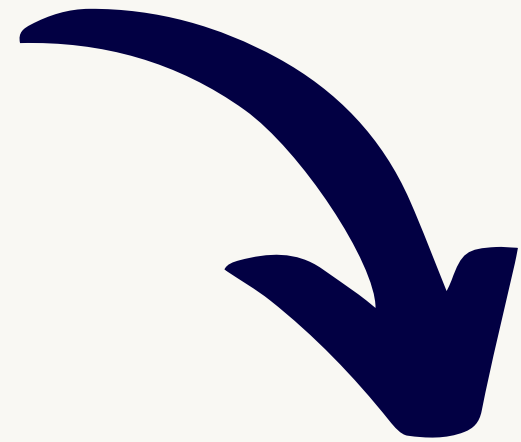

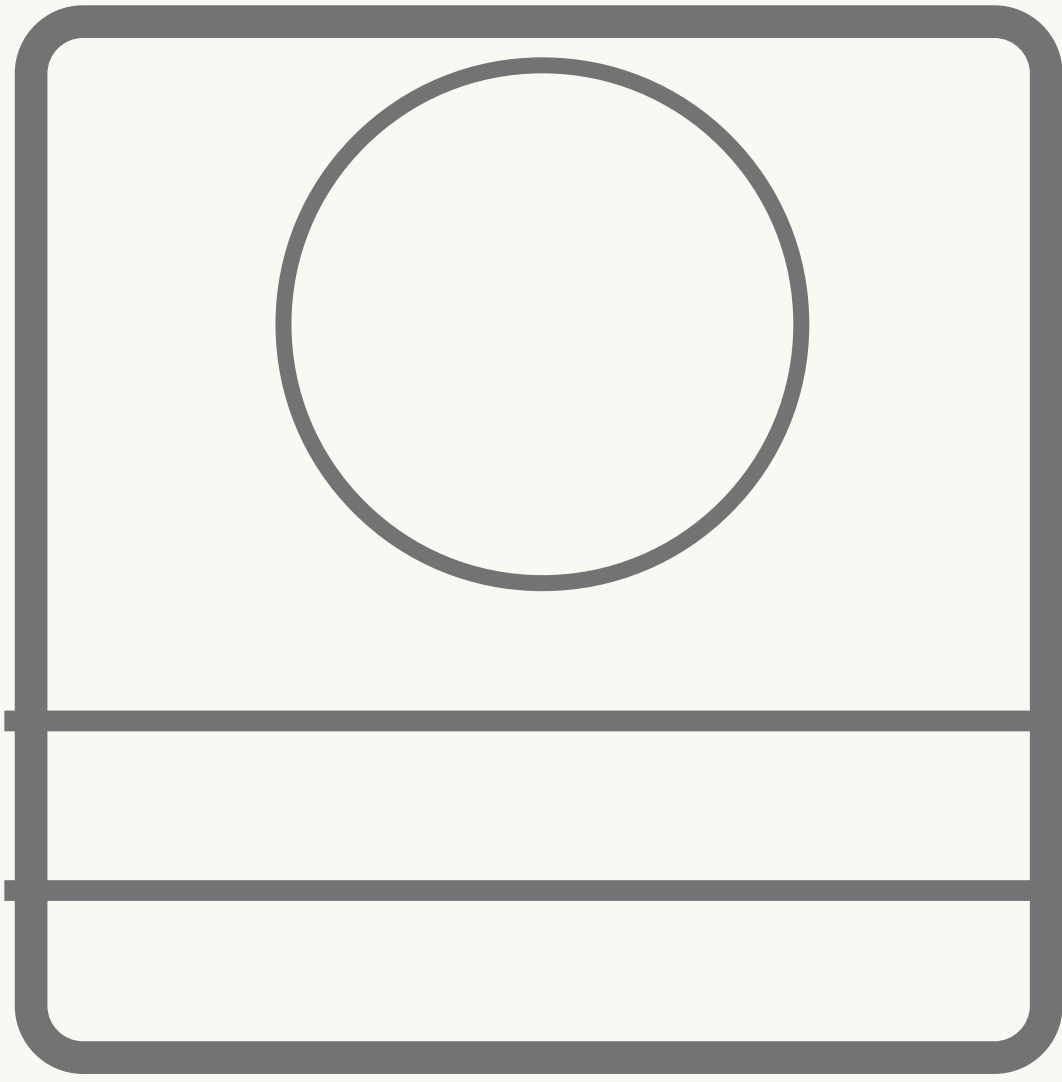

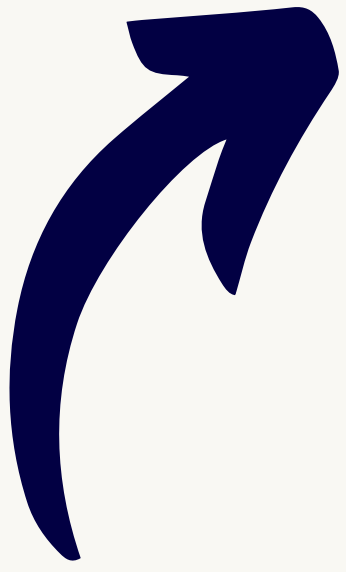

We have created this journal for you to record your learning and findings that you come across during the process from start to finish with your seeds. There are spaces in the journal for photos/drawings of what is happening and also lots of space for writing what you see.

We would love for you to create a digital element of your journey- if you chose to do this please email it prior to showday to us at southland.ap.show@gmail.com

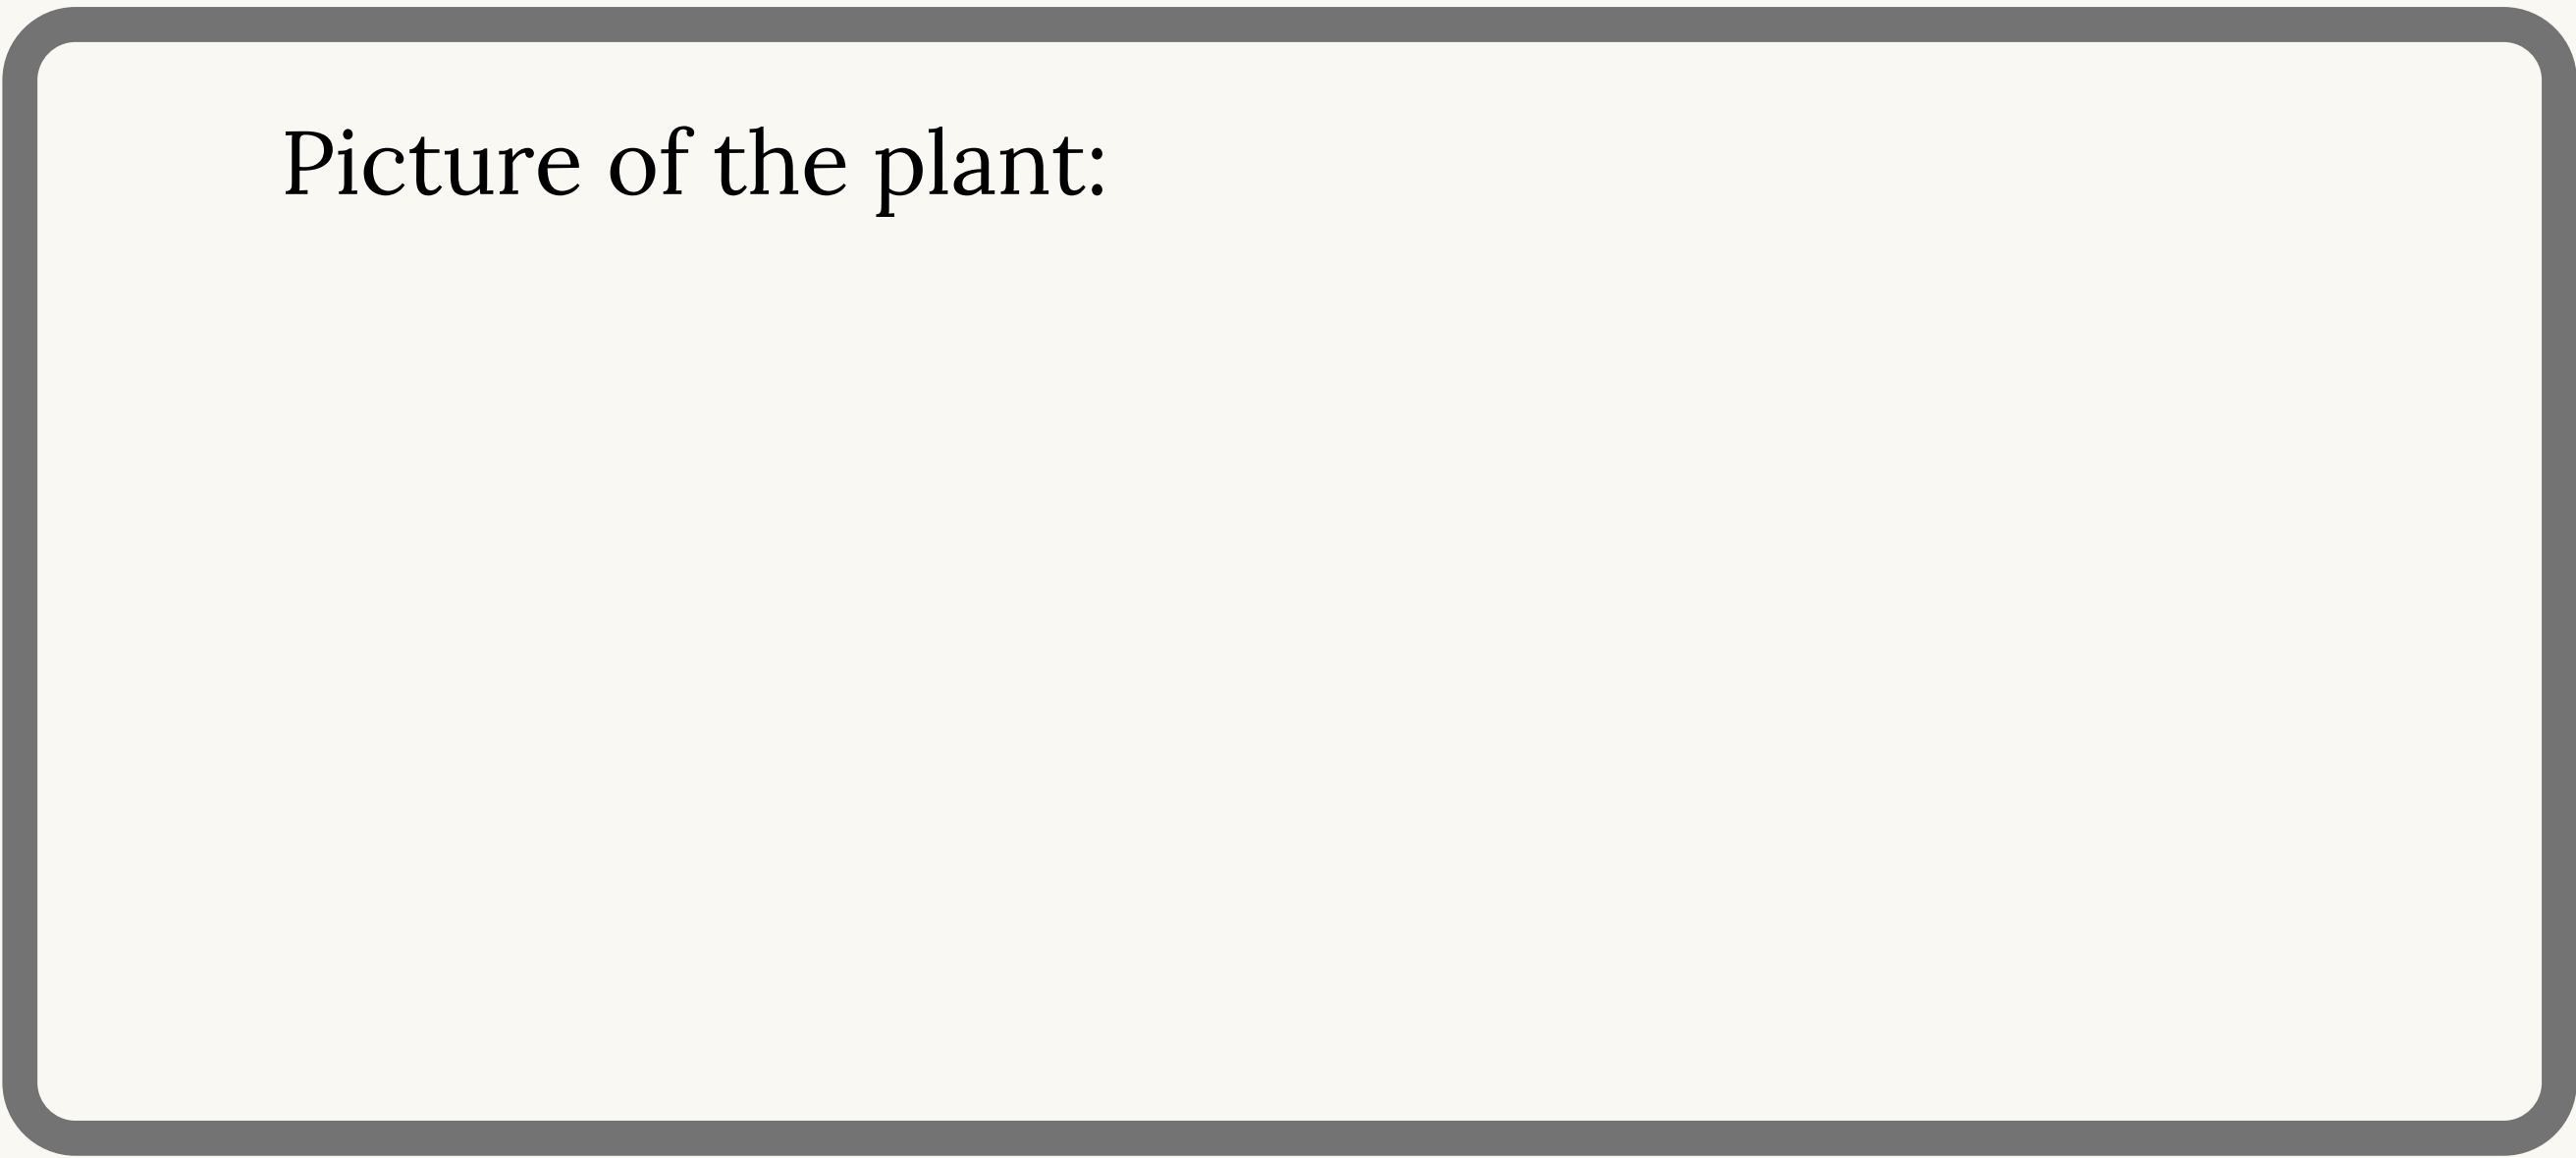

The Cycle of the Seed

Use this template to create your own lifecycle of your seeds
